# The Attention of the Trade

Is respectfully called to our Price List of especially selected **Florists' Flower Seeds, Bulbs, and Florists' Supplies**. We give this branch of our business the most careful attention, and feel fully satisfied that a trial will give the greatest satisfaction to the grower.

We request the trade to notice particularly our high-grade strains of **Asters, Calceolaria, Cineraria, Cyclamen, Gloxinias, Mignonette, Pansies, Petunias, Primulas and Stocks**, also our select list of **Cannas, Gladioli, Dahlias and Lilies**.

We wish it distinctly understood that we do not in any way guarantee seeds. We employ every effort to secure the best, and test every variety we offer. Notwithstanding these precautions, seeds often fail to produce the desired results. This comes from variation of soils, climatic influence, and other conditions over which the seedsman has no control. For these reasons any guarantee, express or implied, cannot be given.

**TERMS OF CREDIT.**—To regular customers and houses of established credit, all bills bought from this catalogue are due 60 days from date of purchase. All accounts are subject to sight draft on expiration of 60 days, if payment is not made by that date.

**On orders** accompanied by cash we will allow a discount of 5 per cent., or from **regular customers** if paid in 10 days from receipt of goods.

**C. O. D.** orders must be accompanied by 25 per cent. of invoice, to guarantee acceptance.

Unknown correspondents desiring to open an account will please furnish satisfactory reference, otherwise cash must accompany order.

Remittances should be made by Post-Office Money Orders, Drafts on New York Banks or Express Money Orders. Where it is not possible to obtain these, the letter should be registered.

Before sending your order give **shipping instructions** and write name and address distinctly on every order.

**We make no charge for packing** and deliver all goods free on board railroad or steamship in New York.

# NOVELTIES IN FLOWER SEED

COMET ASTER, EMPRESS FREDERICK.

## COMET ASTER EMPRESS FREDERICK

Its flowers are of the purest white, 4 to 5 inches in diameter, and of the most refined and elegant globular form, but the feature which constitutes its special merit is the compact, sturdy and thick-set habit of the plant, which makes it particularly suitable for growing in pots. The strong main stem bears a superb flower of extra large size, which is surrounded and partly overtopped by other fine globular blooms borne on side shoots to the number of 8 or 12. A magnificent general effect is thus produced, and as a pot Aster it will be unsurpassed. We consider this grand novelty one of

the best introductions and do not hesitate to predict for it a great future, as we are certain that in a few years it will be one of our best market plants for late summer-flowering. Per pkt., 25c.; per doz. pkts., \$2.50.

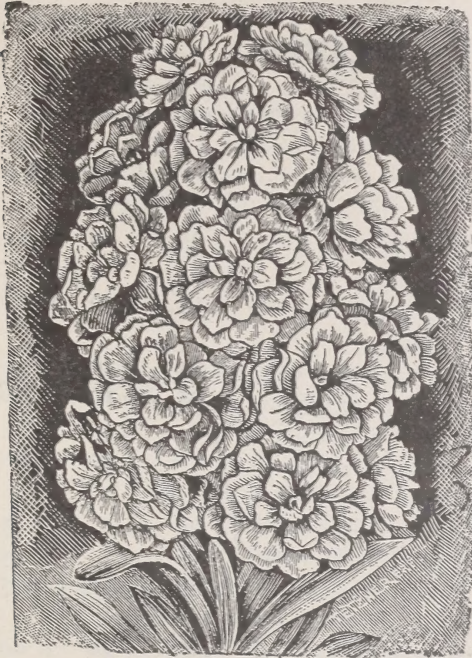

## SNAPDRAGON, QUEEN VICTORIA (Antirrhinum Majus Grandiflorum

Originating from that favorite variety, "The Bride," this splendid new Snapdragon combines the elegant finely-cut foliage characteristic of the latter sort with unusually large flowers of a brilliant white. The latter are borne in great profusion on long and graceful flower-stalks, and thus not only does this fine new variety produce

a grand effect in the open ground, but it will also furnish splendid material for the making up of bouquets. Price per pkt., 25 cts.; per dozen pkts., \$2.50.

STOCK GIANT PERFECTION—10 WEEKS.

# STOCKS

## Improved Giant Perfection, 10 WEEKS

Splendid race of pyramidal growth, with long spikes of beautiful large double flowers, the finest stock for cutting and open ground. Height  $2\frac{1}{2}$  feet.

White, per pkt., 25c.;  
 $\frac{1}{4}$  oz., \$1.50; oz., \$5.00.

Mixed, per pkt., 25c.;  
 $\frac{1}{4}$  oz., \$1.00; oz., \$4.00.

Varieties for Pot Culture, see page 17.

## SWEET PEA

### Earliest of All

Notwithstanding their dwarf habit and neat, slender foliage, the plants are of vigorous growth and come into bloom always ten days to two weeks in advance of the Extra Early Blanche Ferry, which has been heretofore a week ahead of all other varieties. The flowers are as large as those of the regular strains of *Blanche Ferry* and have long stout stems, making them entirely satisfactory for cutting; they are borne in close clusters of three, all facing one way. The standards are a bright, rich pink, while the wings are nearly pure white.

Price, per oz., = \$0.10

SWEET PEA—"EARLIEST OF ALL."

## VERBENA. Mammoth Flowering Mixed.

This is a grand strain of truly mammoth flowered Verbena. It produces uniformly magnificent trusses, of which the individual florets are all of unusually large size. It embraces a wide range of most bright and distinct colors. Price, per pkt., 25c.; per  $\frac{1}{4}$  oz., 50c.; per oz., \$1.50.

<b>ALFALFA, or LUCERNE</b> ( <i>Medicago Sativa</i> ). A permanent clover of great value on all soils which contain lime in any form, and should be much more extensively grown. Alfalfa should be cut every time it comes in blossom, whether the growth is short or tall, for if allowed to form seed, it shortens the life of the plant. Sow in drills, 12 lbs. per acre; broadcast, 18 to 20 lbs. per acre. Weight per bushel, 60 lbs.	\$9 00	\$0 18	\$15 00
<b>ALSIKE, or HYBRID CLOVER</b> ( <i>Trifolium Hybridum</i> ). Weight per bushel, 60 lbs..	13 00		25 20 00
<b>RED CLOVER, Medium</b> ( <i>Trifolium Pratense</i> ). Price subject to change without notice. Weight per bushel, 60 lbs.....	8 00		15 12 00
<b>CRIMSON CLOVER</b> ( <i>Trifolium Incarnatum</i> ). Of great value for sowing in the fall for plowing under the following spring. Weight per bushel, 60 lbs.....	5 00		12 8 00
<b>WHITE CLOVER</b> ( <i>Trifolium Repens</i> ). Should be used in all mixtures for permanent pasture and for lawn. Weight per bushel, 60 lbs.....	12 00		25 20 00
<b>BOKHARA CLOVER</b> affords excellent food for bees throughout its season. Weight per bushel, 60 lbs.....	12 50		25 20 00

PYRETHRUM ROSEUM HYBRIDUM GRANDIFLORUM.

## Pyrethrum Roseum Hybridum Grandiflorum.

Few perennials can be more beautiful than well-grown hybrids of *Pyrethrum roseum*. Not only are they, through their vivid coloring and long-lasting bloom, effective in the open border, either singly or in groups, but the splendid long-stalked, ray-shaped flowers are of exceptional value for cutting, and just what the present fashion demands. It has long been our aim to attain a flower of increased dimensions, and we are now able to offer large-flowering *Pyrethrums*, often reaching 4 inches in diameter, which present all the beautiful variations of color between light rose and deep carmine.

Price, per packet, 20c.; per doz. pkts., \$2.00.
